

Rakshitha B R

+91-9632635038 — rakshithabr347@gmail.com — GitHub — LinkedIn

Professional Summary

Motivated Full Stack Developer and Computer Science Engineering graduate with hands-on experience in Python, Django, React.js, MySQL, and REST API development. Skilled in building scalable web applications, authentication systems, CRUD operations, responsive user interfaces, and database management. Strong understanding of OOP, DBMS, Data Structures, debugging, and software development practices.

Technical Skills

Languages	Python, JavaScript, C, SQL
Frontend	HTML5, CSS3, Bootstrap, React.js
Backend	Django, Django REST Framework, Node.js
Database	MySQL, SQL
Tools	Git, GitHub, VS Code
Core Skills	REST APIs, CRUD Operations, Authentication, API Integration, Responsive Design, OOP, DBMS, Debugging

Experience

Web Development Intern

Jan 2026 – May 2026

Apsis Solutions

- Developed full-stack web applications using Django, React.js, and MySQL.
- Designed and integrated RESTful APIs for frontend-backend communication.
- Implemented authentication systems and role-based access control.
- Optimized database queries and improved application performance.
- Collaborated on responsive UI development and debugging processes.

Projects

Behavior-Based Intranet Attack Detection

Python, Machine Learning

- Developed a machine learning model to detect anomalous user behavior in intranet systems.
- Performed preprocessing, feature extraction, and classification using supervised learning algorithms.

Online Examination System

Django, React.js, MySQL

- Built a role-based full-stack web application with Admin, Teacher, and Student modules.
- Implemented authentication, CRUD operations, exam management, and automated result generation.
- Developed responsive dashboards and REST API integration.

AI Job Tracker

Django REST Framework, React.js

- Developed a job tracking application with JWT authentication and REST API integration.
- Implemented job status management, editing, updating, and deletion functionalities.

House Price Prediction System

Python

- Built a regression-based machine learning model for predicting house prices using real-world datasets.

Certifications

- Python Programming – Udemy
- Full Stack Web Development – Udemy
- HTML – Infosys Springboard

Education

Bachelor of Engineering in Computer Science Engineering

Government Engineering College, Chamaraajanagar
CGPA: 8.6 / 10

2022 – 2026
